Please attend the meeting concerning the Walmart bank. This issue is very important and your presence is required. I oppose this bank because I support local business and have seen how Walmart comes in rapes, pilages and plunders communities. Don't give them this power in our banks. Walmart seriously undermines the economies of the communities it does business in. It takes local money and puts it in Arkansas. I don't want them destroying my community physically or financially. This endeavor is a dangerous concentration of power by the largest corporation in the world. It would create an unfair and dangerous concentration of commercial and financial power. WalMart has a history of bending and breaking laws so they can make a buck. We cannot trust them with an institution so vital to the well being of our communities. WalMarts argument that Target has such a bank is not a valid excuse for them to. Target cannot compare to the magnitude of their business. A Walmart bank would pose risk to the FDIC and American fiscal security due to its sheer size. PLEASE do not let this corporate giant rape, pillage and plunder our economies. You have the power to stop it and I encourage you to do so. It may be tempting to succumb to their enticements but you owe it to the people of this great nation to say no. The people are more important than their ability to monopolize our country for their own profit.
